The most repulsive sores and cruptions are instantly re-lieved from irritation and quickly removed from the skin. HOW RADWAY'S RENOVATING RESOLVENT CURES CONSUMPTION.
To cure Consumption we must stop docay and rebuild and heal the worn-out organs of the system that disease has con-

heat the wormous wages affected. It affects the Liver, the are not the only organs affected. It affects the Liver, the Heart, the Ridneys, Bladder, and Pancreas; and, in fact, every organ in the body is more or less tainted with decomposition and decay.

THE LUNGS

Position and decay.

THE LUNGS

ARE THE BREATHING APPARATUS OF THE SYSTEM.

When the Lungs are in a state of decay they are unable to receive or emit the necessary amount of air requisite to sustain life. The greater the atmospheric pressure upon the air-coils, the more painful, irritable, and suffocating is the weight upon the lungs.

THE GLANDS

lungs.

ULCERS AND LUMPS IN THE THROAT

are formed from unhealthy deposits, which the lungs are
unable to eject without the sid of powerfal emetics, and the
Liver too weak and feeble to secrete.

TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solidary habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loes of Muscular Power, Palpitation of the Heart, Dyspensia, Nervous Irritability, Derangement of the Digestive Functions, General Deblity, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loes of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebedings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY. Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that foliatry practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often missualicet themselves.

subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emaciated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion I Such persons, before contamplating

MARRIAGIS,

should reflect that a sound mind and bedy are the most necessary requisites to promote connubial happiness. TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston perits his card to appear before the public, deeming it unpressional for a physician to advertise; but unless he did so, a afflicted, especially strangers, could not fail to fall into a hands of these imprudent, beasting impostors. It is with the greater uals destitute of know uals destitute of knowledge, name, and character—pediars shoemakers, mechanics, &c., advertising themselves as platicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with ruined health to sigh over your galling disappointment. PROSPECTUS OF THE COTTON PLANT.

SOUTHERN JOURNAL, PURLISHED WEEKLY, TO ADVOCATE DIRECTIONS, MANUFACTURES, AGRICULTURE, AND THE DEVELOPMENT OF SOUTHERN RESOURCES,

BY C. G. BAYLOR.

WASHINGTON, D. C. WASSINGTON, D. C.

THE importance of such a journal as the above needs no exposition. The material and substantial interests of the South have been too long neglected. The "Corron Plant" is established to promote these interests, keeping entirely aloof from party or party politics. A complete foreign and domestic correspondence has been arranged. The best talent of the country will contribute to our columns, which will present a medium of general communication, correspondence, and information for the friends of the measures we advent. The suppose teach have been them. respondence, and information for the friends of the measures we advocate. The proper step have been taken in Europe and America to lay the foundation of a direct foreign trade at the South, and to introduce our coarse manufactures into the continental European market. One object of the "Corron Plant" will be, as the organ of direct trade, to stimulate the South to carry out this important measure.

We call upon the Southern merchants generally to send us their besiness cards, that we may lay them before the country, to enable the friends of Southern commerce, manufactures, &c. to discriminate properly in their desire to pre-

us their besiness cards, that we may lay them before the country, to enable the friends of Southern commerce, manufactures, &c., to discriminate properly in their desire to promote Southern enterprise.

The importance of Washington City, as a point of location for such a journal, especially in regard to opening foreign correspondence and promoting our foreign relations, is apparent. The opportunity of seeing here, also, members of Congress from every district of the country, presents means of general co-operation not to be found elsewhere.

To the Cotton, Sugar, Rice, and Tobacco Planters, we look confidently for support; and to the friends of "Direct Trade" throughout the South we say, "show your faith by your works."

The regular issue of the "Cotton Plant" will commence in June next. Advertisements are particularly requested to be forwarded early. Business letters addressed to C. G. Barton, Washington City, D. C.

Correspondence from all interested in the cause we advocate is solicited, particularly as to the crop, as we wish to give correct information on a subject which is of so much importance to the Planter, and in representing which he has

ortance to the Planter, and in representing which he has importance to the Planter, and in representing which he has been so often injured.

Postmasters are requested to act as agents for us: and to all who approve our cause we look for good feeling, kind-ness, and support.

AMERICAN TELEGRAPH.

Presidential Nominations. [Correspondence of the Philadelphia North American.]

WASHINGTON, May 23. The most sagacious politicians on the Democratic side admit complete ignorance as to the probable candidate. A distinguished leader wrote yesterday he could not even conjecture who would be the nominee. Gen. Cass has fallen off heterogeneous one. Nothing but an ubiquitous within a fortnight, though still at the head of the power could divine or attempt to delineate the list. Delegates from the East and West, who different characters. The outside army of lob-were counted with confidence, express very different intentions here in Washington. Douglas will loom up larger on the second ballot than is now anticipated. Mr. Buchanan will nearly tie his most formidable competitor. And, finally, the struggle will settle down among the negatives and nondescripts, one of whom will

bably be selected. Much has been said and written of the prospects in the Whig Convention, and estimates pidly in the Democratic ranks. We cannot tell, have been fabricated to suit the inclinations of however, what a day may bring forth. partisans and to recommend them to favor. Having taken some pains to inform myself on this subject, and without any disposition to dis-parage the claims of either of the principal candidates, I desire to submit a computation which will bear scrutiny. In this statement votes are conceded to Mr. Fillmore and Mr. Webster in the free States which are known to favor Gen. Scott, and which will be found under his standard at the very start, if the policy should be deemed The estimate refers to the first bal-

Californi It will be seen that, without drawing on any reserved strength, General Scott could be nomipart of even this original force. Should a second ballot occur, the following result may be an-

ticipated: Massachusetts Pennsylvania California Rhode Island... New Hampshire New York.... Iowa Michigan Maryland Virginia... Add votes already ascertained for Gen. Scott

In the statement of Mr. Fillmore's votes, the States of South Carolina, Georgia, and Alabama tarily surrendered their former limited organization, and the first has hardly ever had even the

islature, and the neonle have

voice in the election of President. It is understood here, notwithstanding the extraordinary telegraphic despatch which Mr. Dawto send no delegates to either of the Conventions at Baltimore, that he and his friends are now contriving a set of delegates for the purpose of fortifying Mr. Fillmore's pretensions. It is also a city institution, open to general contrib-known that an agent, Dr. Smith, of Alexandria, and accessible alike to all indigent persons. Va., has been despatched to South Carolina, Georgia, and Alabama, with a manifesto, signed by Northern men, urging and entreating the adoption of measures for the accomplishment of the same object. The first duty of the Convention should be to scrutinize the credentials of all such sham delegates as are manufactured to order by collecting a few partisans in a corner and instructing them in the duty of dience. These States were the very first to abandon the administration, and to adopt the issue upon which they now profess to sustai it as the corner-stone of a third party, of which Mr. Fillmore's present enterprising managers were to be the leaders. What claim or right, moral or political, then, have they to appear in a Convention of Whigs whom they repudiated and assailed? But if the naked facts already stated were not sufficient to exclude this presumptuous interference in our councils, where the agitators are neither needed nor expected, there is another and a more positive reason. If these bogus delegates de appear in the Convention, it will be for sectional candidate afterwards. This scheme, though not publicly developed, has been under advisement for some time. Let our Whig friends look to the conspirators-the enemies in dis-

etrav it. But, conceding to Mr Fillmore the whole support of these three States, how will the case

THE SUBSCRIBER begs leave to return his thanks to his friends for the very liberal support they have given him, and respectfully solicits a continuance of the same. He may be found at all times at his old stand, on D street, between 7th and 8th streets, where his expenses are small, and afford him an opportunity to sell on mederate terms to bis customers. So that, under the most favorable circumstances, admitting votes which may and probably will never be given to Mr. Fillmore-for there is ware, to appear fully represented and to vote solidly—events which are very improbable—he about a year old, which had been left asleep in would still lack 28 votes—a number equal to the aggregate of Ohio-to get the nomination even skin of his teeth. Now, every candid man believes Mr. Fillmore could not be elected, even if nominated.

Conventions—Gen. Scott's Prospects
—The Weather.

Вацтімове; Мау 25-10 р. т. The city is rapidly filling up with strangers. They are coming in from all quarters. By Sunday next we shall have a complete crowd, and a heterogeneous one. Nothing but an ubiquitous biers will far outnumber the insiders or delegates. The telegraph wires, I have no doubt, will be kept busy on that occasion; but the political wires will not be idle, as there will be wire-pullers enough to keep them moving. The current

of talk at present is not flattering to the hopes of

Gen. Cass. Buchanan stock is rising pretty ra-

Baltimore may calculate upon doffing her commercial character for a month to come. She will be the very nucleus of politics. It is fortunate, however, that this influence or annoyance will be of comparatively short duration. We shall gladly yield back the prerogative to Washington, and allow her to hold it supreme for four years

Every day brings out new friends for the cause of Gen. Scott. Although Maryland is Fillmore all over, yet she will give a strong, invincible broadside for the old General, if he be nominated. There may be some few peculiar and special Whigs who will not vote for him, but every one of these will be replaced with ten Democrats. The Whig party proper in this country is powerful and of infinite value in its conservative capacity, but is not strong enough, unaided, to triumph over the Democracy. If the Whigs wish to be successful, they must nominate a man who will take with him all classes. General Scott, I doubt not, would do this.

We have exquisite weather, though quite warm. Vegetation all around is flourishing, and the crops promise abundantly. CHESAPEAKE.

> Communicated. Benevolent Associations.

MESSES. EDITORS: Individual enterprise has succeeded in or a sizing several associations for benevolent purposes, and much sorrow and suffering has been alleviated. But few, however, have participated in this Heaven-born mission. nated on the first ballot. But there are consider-ations which may induce his friends to yield a part been the actors; and while their efforts part been the actors; and while their efforts have been characterized with commendable zeal and activity, yet the field of their operations has necessarily been circumscribed on account of a natural repugnance, always difficult, and in most cases impossible, to overcome in delicate minds, to approaching others than acquaintances upon errands of this character. The sensitive mind shrinks from the natural scrutity of motive which a stranger is apt to indulge; and, indeed, the melancholy experience of every benevolent person proves that some who wear the image of Divine perfection have no sensibilities in common with the precepts of the great Master, and reare omitted, because they have not elected delegates, and because, also, they are not entitled to spond to all creations of charity with a coarserepresentation in the Convention, inasmuch as ness amounting to insult. These causes serve to the professed Whigs in the last two States volunce confine those efforts within a narrow sphere, and consequently impose burdens upon the few, when, name, much less the organization, of a Whig with a general distribution of the pleasure of party. The electors of South Carolina are chosen contributing to want and suffering, none would

e incommoded, and all would be gratified. My object in this communication is to call the attention of those excellent ladies of the city who son sent to Georgia after the secession from the have given their energies to these high and holy Whig caucus, advising the so-called Union party ministrations to the subject of enlarging the area of their organization, so as to characterize its operations with the distinguishing marks of a city institution, open to general contribution,

It has occurred to the writer of this article that such a scheme, under the control of the ladies, might, in a very short time, be so expanded as to furnish, from an overflowing treasury, filled by voluntary contributions, ample relief to every sufferer. And in this view I would respectfully suggest to those who now manage the various benevolent associations that they join together in a public effort to form a general city organiration for the purpose of collecting and dispensing charities, and that all industrial associations shall be subordinate to this great central authority; that a system be adopted by which a portion of each day will be given, by a board of ladies chosen for that purpose by a vote of all who now constitute the several associations referred to, to the adjudication of claims upon the treasury, and fixing the quantum and kind of relief to which every applicant may be entitledthe express purpose of seceding if their insolent dictation should be accomfully rejected—as it should be—and of taking up Mr. Filimore as a and circumstances of want known to exist in all cities Timid sufferers, who, from education and affinities, would drag along upon a dry crust, and guise-who will seek their confidence only to seek in seclusion a shield from unfeeling questioners, ought to be made to feel that their communications to the board, like their sincere orisons to Him who sees and answers in secret, should be responded to in privacy, and with

proper regard to delicacy. The foregoing suggestions are made with much diffidence, but with confidence that the general subject is deemed important by those competent and willing to devise suitable means of enlarging the circle of benevolence, and giving a worthy direction, and my object will gained if such persons shall be awakened to the necessity of making an effort.
